Vikings Formula consists of a predominantly young member base, with many of our members in their first or second year of university. This youth-driven team brings fresh perspectives, high energy, and a strong willingness to learn. Our early engagement with students allows for long-term development, continuity, and leadership growth within the organization, ensuring the sustainability and future success of the team.

WHAT IS FORMULA SAE ELECTRIC?

Formula SAE is a student design competition organized by the International Society of Automotive Engineers. In Formula SAE, university teams design, build, and compete in small formula style race cars. This competition is comprehensive as it tests a team's ability to manage their project, market their team, and design and build a highly complex vehicle.

WHO ARE WE?

Vikings Formula, or Cleveland State Formula SAE Electric, is the official Formula SAE club at Cleveland State University, located in Cleveland Ohio. Recently started in early 2025, Vikings Formula seeks to revive the legacy of Formula SAE at Cleveland State.

Composed of approximately 40 dedicated engineering students, our team is committed to designing, building, and testing a fully electric formula-style race car. Our goal is to compete in the Formula SAE Electric competition held annually in Michigan, representing Cleveland State University on a national stage and showcasing our innovation, technical skills, and teamwork.

Our team opens opportunities for students of all majors and backgrounds to collaborate together on a large-scale project. Our goal is to foster creativity, teamwork, and learning, no knowledge is required for those interested in joining.

WHY SPONSOR VIKINGS FORMULA

Investing in Vikings Formula is investing in the future of engineering and automotive innovation. As CSU's official Formula SAE Electric team, Vikings Formula provides a unique opportunity for industry partners to engage early with skilled, motivated, and job-ready engineering talent.

Sponsorship Benefits

❖ Direct Access to Engineering Talent

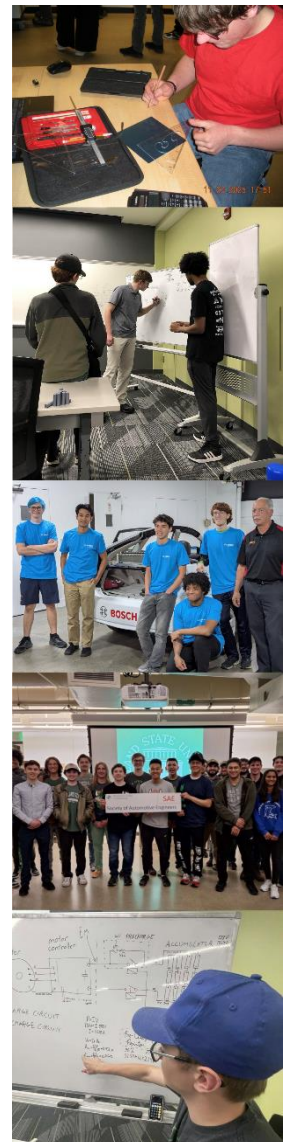

- Students with hands on experience
- SolidWorks, FEA, and CAD proficiency
- Experience with high-voltage systems, battery systems, embedded systems, and advanced simulation tools

❖ Bridging the Gap Between Academia and Industry

- Managing budgets
- Sourcing parts
- Fabricating components
- Multidisciplinary collaboration
- Problem solving
- Making lasting industry partners

❖ Enhancing Partner Visibility

- Logo placement on vehicle
- Logo on uniforms
- Logo on promotional materials
- Co-branded event opportunities
- Direct campus engagement
- Demonstrate your company's commitment to STEM education, sustainability, and regional talent development

Team Deliverables

Sponsorship Packages:

❖ **Broze Sponsor \$1,000+**

- 501(c)(3) tax deductible
- Small logo on car
- Featured on all team signage
- Featured on website
- Invitation to unveiling of car
- Invitation to all team hosted events
- Logo on team shirts

❖ **Silver Sponsor \$2,500+**

- All benefits of Bronze
- Medium logo on car
- Promotion on social media

❖ **Gold Sponsor \$5,000+**

- All benefits of Silver
- Large logo on car

❖ **Platinum Sponsor \$7,500+**

- All benefits of Gold
- XL logo on car
- Promotion at team events

Success Metrics & Budgeting

Return on Investment (ROI) Metrics Table 1

ROI	Sponsor	Description	Measurement
Aluminum Performance Validation	Alro Steel	Validation of material provided by sponsor under competition conditions	Post-testing inspection and durability assessment
Tire Performance Validation	Hoosier Racing Tire	Validation of tire provided by sponsor under competition conditions	Lap times and skid-pad testing
Technical Feedback	Alro Steel & Hoosier Racing Tire	Technical inspection and feedback of the suspension system based on sponsor materials	Formula SAE judge feedback

2027 Projected Team Budget

Sub System	Components	Projected Costs
Mechanical	Chassis Suspension Wheels/Tires Brakes	\$25,000
Electrical	Motor Drivetrain Battery PCBs/BMS Control Systems	\$20,000
Logistics	SAE Competition Registration Travel Expenses Vehicle Transportation	\$8,000

Why Vikings Formula?

Investing in Vikings Formula is investing in the future of engineering and automotive innovation. As Cleveland State University's official Formula SAE Electric team, Vikings Formula provides a unique opportunity for industry partners to engage with skilled, motivated, and job-ready engineering talent. Recognizing that a sponsor's resources must be allocated strategically, Vikings Formula offers a valuable partnership that delivers targeted brand exposure and provides hands-on, real-world product testing opportunities.
